# ABOUT COMPANY

Ihophe Group is a leading fleet management and consultancy company with over 20 years combined industry experience, we solidify ourselves as experts in this field

## Our Philosophy

We strive to continuously improve ourselves to better serve our clients

# DIRECTOR STATEMENT

*We are Fleet Management Pioneers Ihophe Group is the trailblazer in fleet leasing and management, boasting a three-decade legacy as the first company of its kind in South Africa. We've maintained our industry leadership throughout these years.*

Our vision is clear: to be the #1 fleet management solutions provider on the African continent. We continuously refine our operations to achieve this aspiration. We offer world-class fleet leasing and management solutions to both public and private sector organisations, helping them meet their cost-cutting goals while enhancing service delivery to stakeholders.

Our strategy is simple: empower our customers to manage their fleet effectively without compromising their core operations and service delivery commitments. With the financial and operational capabilities needed to drive efficiencies and significant cost savings, we're equipped to bring improvements to our customers' operations.

**Ayanda Ngidi** (Director)

# MISSION & VISSION

## MISSION:

To grow and establish ourselves by becoming market leaders in our field and playing our role in creating sustainable employment opportunities.

## VISION:

To become the preferred partner and company of choice in the continent by providing the highest level of services and products to our valued clients.

## AMBITION:

To constantly provide professional ethical business practice. We also strive to meet client needs timeously and better equip them.

# We will achieve our vision by:

- Developing diverse products and services.
- Constant industry research
- Creating and developing skilled people
- Professional, sound and accurate research

## OUR CORE VALUES:

- Passion
- Teamwork
- Integrity
- Professionalism
- Deadline orientated
- Quality
- Ethical and uncompromising customer service

”

*"Your fleet, our priority,  
success our destination"*

# BBBEE Status

*Our company is 100% BBBEE compliant and is a level 1 contributor with 60% black women youth. Further to this we have committed ourselves to respect and value all forms of diversity including race, gender and disability. We also strive to achieve maximum points on our scorecard and will continually improve.*

”

*"Where Reliability  
Meets the Road"*

# OUR SERVICES

## Outright Purchase

*We source, register and license the following from our network partners at negotiated discounts*

**Passenger Vehicles and LDV**

**Trucks**

**Earthmoving Equipment  
(Yellow equipment)**

**Aircrafts – Commercial,  
private and military**

**Military Vehicles**

**Watercrafts -  
which include ships,  
yachts and boats**

## Full Maintenance Lease (FML)

This is a comprehensive fleet management solution where we handle all aspects of vehicle acquisition, maintenance, and administration, allowing you to use the vehicles at a fixed monthly cost.

## Short and Long Term Vehicle Rental

Short-term rentals are typically for a few days or weeks, while long-term rentals can last for months or even years. Long-term rentals often offer lower monthly rates, greater flexibility, and the ability to extend the rental as needed.

## Operating Lease

An agreement to use and operate an asset without the transfer of ownership. An operating lease works like a rental agreement in that you only pay for use of the vehicle. We take the risk on the purchase and resale of the vehicle

## Vehicle Tracking and Telematics

We monitor your cars, trucks, equipment and other assets using GPS technology and on-board diagnostics (OBD) to plot the asset movements on a computerized map. Also known as fleet tracking or GPS vehicle tracking, telematics is now an essential management tool for many commercial and government fleets.

## Tyre Management

With our tyre management service we place an experienced team at your site and manage all aspect of your tyre inventory and tyre maintenance requirements. We also manage and reduce potential downtime of road side incidents with our mobile service. We supply new tyres For Vehicles , Tucks and Graders or Earthmoving equipment on a once of basis.

## G.E.T (Ground Engaging Tools)

IHOPHE GROUP offers a complete range of ground engaging tools for earthmoving machines. The product range includes, bucket teeth, bucket adapters, bucket lips, half arrow blades, bucket shrouds, cutting edges, end bits, router bits, grader blades, overlay end bits, underlay end bits, heel shrouds, bucket protectors, chocky bars, wear buttons, wear bars, wear blocks, wear runners and general purpose bucket lip systems.

## Driver and Operator Training

We equip your drivers and operators with the skills and knowledge to operate equipment safely and effectively, reducing workplace accidents, downtime, and potential damage. Additionally, properly trained operators can improve productivity, reduce errors, and maintain product quality.
